Dear Rachel,

Thank you for working with pupil S. over the last year. He has enjoyed working with you and on occasions when he has not wanted to do anything, he has always responded positively to you and looked forward to your arrival in school.

S. can be an extremely single minded and often finds it difficult to express himself, through therapy sessions he is beginning to use his soft toy 'Mickey' as a vehicle to express his own thoughts and anxieties.

Drama therapy has been a great support and benefit to S. through a stressful time in his life, it has helped him face difficult decisions and given him a greater understanding of the world he lives in.

Many thanks for your input.

Yours sincerely

Sarah Jones
(Specialist teacher)

For Young People with Communication and Interactive Disorders and Physical Disabilities.
The students are included, where appropriate and with adult support,
in mainstream lessons at The Marlborough School Woodstock
